BIG CHANGES AT THE RRC!

From 1 September 2009, we will be using our new second weighbridge. With this change comes changes to the way customers access and leave our site, and the way products are charged.

All customers will be given a Radio Frequency Identification Cards (RFID) which will hold their transaction data. For casual customers, this card will be provided on entry, and returned on departure. Account holders will be provided their own card, which will be retained on exit. Please be careful with this card as lost cards will incur a \$20 fee.

The majority of products will now be weighed to improved accuracy and accountability. See our Fees and Charges (overleaf) for updated rates. This means most people will be paying on exit.

For the first few weeks, everyone will be getting used to the new system—customers and staff alike. The changed traffic flows and payment system will take some getting used to, but we believe the new system will work out better for everyone.

Please be patient and drive carefully!
